

EXTEND™

EXTEND™ automates and personalizes joint replacement care coaching for patients, while gaining insight into risk factors enabling care teams to effectively identify and engage.

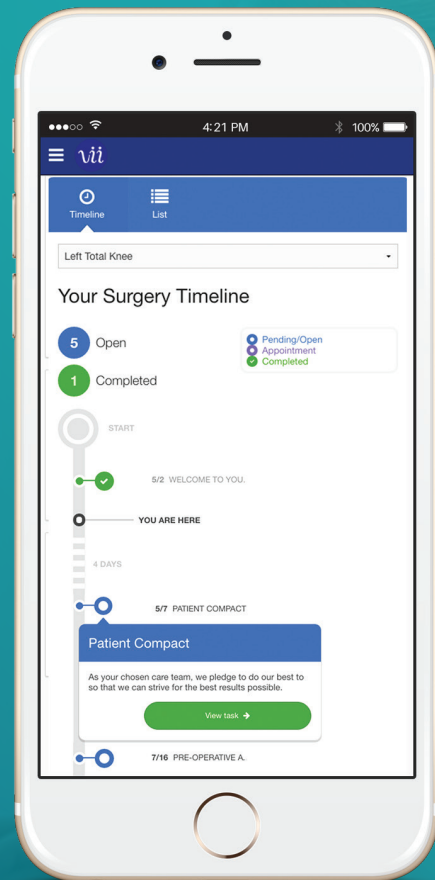

Lowering Surgery Cancellations by Up to 70%

Saving Time in Peri-Operative Education by 24 hr/week

Reducing Non-Reimbursable Uneventful Follow-Ups by 50%

EXTEND™ Peri-Operative Workflow enables surgery Provider Groups to:

- Lower surgery cancellations in the pre-operative surgical coordination process
- Reduce non-reimbursable / uneventful follow-up visits in the post-operative setting
- Improve education delivery across the entire peri-operative process
